Soumyadip Dutta

Kolkata, West Bengal

8926371680 • soumyadipdutta456@gmail.com • LinkedIn • GitHub • LeetCode • Portfolio • HackerRank

Profile Summary

Seeking opportunities in **Machine Learning**, **Software Development/Testing** and **Cyber Security** that foster professional development and provide challenging experiences through solving real-world problems. Proficient in Python, ML, and AI with hands-on project experience in classification models, NLP, and security. Currently pursuing B.Tech in CSE and actively expanding knowledge in deep learning and ethical hacking.

Education

Haldia Institute of Technology, Haldia (CGPA: 8.77 up to 6th sem) **2023 – 2027**
Bachelor of Technology in Computer Science and Engineering *Haldia, West Bengal*

Rampurhat Jitendralal Vidyabhaban (H.S.) (Percentage: 87.40%) **2021 – 2023**
Higher Secondary – WBCHSE (PCMB) *Rampurhat, West Bengal*

Rampurhat Jitendralal Vidyabhaban (H.S.) (Percentage: 89.14%) **2021**
Secondary – WBBSE *Rampurhat, West Bengal*

Experience

Webrich Software Limited **July 2026 – Present**
QA Testing & Software Development Intern

- Working across software testing and development, contributing to application quality, functionality, and feature improvements.
- Performing manual and automation testing using Playwright and supporting API testing, defect tracking, and test validation.
- Contributing to development tasks and using AI-assisted workflows to improve testing and development efficiency.

Google Developer Groups (GDG on Campus) **Nov 2024 – Present**
Public Relations and Management Lead *Haldia Institute of Technology*

- Lead public relations and event communications for campus GDG activities.
- Coordinate cross-functional teams to organize technical events, workshops, and community sessions.
- Manage outreach for 3+ technical events, improving student participation and community engagement.

Computer Society of India (CSI) **Jul 2024 – Jul 2025**
Core Member *Haldia Institute of Technology*

- Actively participated in organizing technical events and workshops for 100+ students.
- Collaborated with team members to promote technical learning and student engagement.

Projects

Iris Species Predictor | **Live Demo** | *Python, Logistic Regression, Streamlit, Pickle* **January 2026**

- Built and deployed a real-time Iris flower species classifier using Logistic Regression, achieving 96%+ accuracy on the test set. Hosted as an interactive web app using Streamlit.

Real Estate Valuation Prediction | **GitHub** | *Python, Regression, scikit-learn* **February 2026**

- Developed a regression model to predict real estate prices from structured dataset features. Produced a comprehensive analysis report with model evaluation metrics.

AI Phishing Email Detector | **GitHub** | *Python, AI, Claude API, FastAPI* **April 2026 – June 2026**

- Developing an AI-powered phishing email detector that integrates the Claude API to analyze email content and identify potential phishing threats in real time.

Resource-Adaptive Federated Learning | **GitHub** | *Python, Federated Learning, Deep Learning* **2026 – Present**

- Developing a federated learning framework that trains a shared model without transferring raw client data while supporting different model sizes across resource-constrained devices.

Personal Projects | **GitHub** | **Portfolio** | *Portfolio Website, Python, OpenCV, YOLO, pikepdf* **2024 – Present**

- Built mini-projects including real-time Face Detection (YOLO/OpenCV), QR Code Generator, and PDF Encryption.

Research Work

ForestFormer: Above-Ground Forest Biomass Estimation **July 2026 – Present**
PyTorch, Vision Transformers, Remote Sensing

- Developing a Vision Transformer-based approach for above-ground forest biomass estimation using Sentinel-1 SAR and Sentinel-2 satellite imagery.
- Conducting literature review and methodology development toward experimental evaluation and future publication.

Technical Skills

Programming Languages: Java, Python, C, HTML/CSS
Databases: MySQL, MongoDB, PostgreSQL, SQL
Developer Tools: VS Code, Git, GitHub, Jupyter Notebook
Testing Tools: Jira, Playwright, TestNG, Postman, Selenium
Mobile Testing: iOS Testing, iPadOS Testing, Android Testing,
Libraries/Frameworks: NumPy, Pandas, scikit-learn, TensorFlow, XGBoost, Flask, FastAPI
Data Engineering: ETL, Data Cleaning, Data Preprocessing
AI/ML: Machine Learning (ML), Artificial Intelligence (AI), Deep Learning (DL), Natural Language Processing (NLP), Generative AI (GenAI), Claude API, RAG, Prompt Engineering, Computer Vision
Software Engineering: QA Automation, Manual Testing, API Testing, SDLC, STLC, Agile, Bug Reporting, OOP, DSA
SEO: Search Engine Optimization (SEO)
Languages: English, Hindi, Bengali

Certifications & Training

The Joy of Computing Using Python **Jul 2026 – Dec 2026**
NPTEL, IIT Madras | Elite Gold Certification | Score: 91% | 4 Credits

AI for Everyone - Certified AI NATIVE **Mar 2026 – May 2026**
AI for Engineers Arena
- Developed an AI-based phishing email detector with API integration.

Indian School of Ethical Hacking (In-House Internship Training) **Jan 2026 – Feb 2026**
Advanced Python with Machine Learning and Cyber Security
- Trained in Machine Learning, Deep Learning, Cyber Security, and ethical hacking fundamentals.

Visteon Scholar Program **Nov 2025 – Jun 2026**
Phase 1 Completed and Qualified
- Completed training in automotive electronics and embedded systems fundamentals.

Meta Front-End Development Certificate **Jan 2024 – Apr 2024**
Coursera
