## Profile Summary

Seeking opportunities in **Machine Learning, Software Development/Testing** and **Cyber Security** that foster professional development and provide challenging experiences through solving real-world problems. Proficient in Python, ML, and AI with hands-on project experience in classification models, NLP, and security. Currently pursuing B.Tech in CSE and actively expanding knowledge in deep learning and ethical hacking.

## Education

|                                                                          |                               |
|--------------------------------------------------------------------------|-------------------------------|
| <b>Haldia Institute of Technology, Haldia (CGPA: 8.77 up to 6th sem)</b> | <b>2023 – 2027</b>            |
| <i>Bachelor of Technology in Computer Science and Engineering</i>        | <i>Haldia, West Bengal</i>    |
| <b>Rampurhat Jitendralal Vidyabhaban (H.S.) (Percentage: 87.40%)</b>     | <b>2021 – 2023</b>            |
| <i>Higher Secondary – WBCHSE (PCMB)</i>                                  | <i>Rampurhat, West Bengal</i> |
| <b>Rampurhat Jitendralal Vidyabhaban (H.S.) (Percentage: 89.14%)</b>     | <b>2021</b>                   |
| <i>Secondary – WBBSE</i>                                                 | <i>Rampurhat, West Bengal</i> |

## Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                       |

| <ul style="list-style-type: none"><li>Planned and initiated research on a Vision Transformer-based approach for estimating forest biomass using Sentinel-1 SAR and Sentinel-2 satellite imagery.</li><li>Currently performing literature survey, identifying suitable datasets, and preparing the methodology for future experimentation and publication.</li></ul> |                            |

## Technical Skills

---

**Programming Languages:** Python, C, Java, HTML/CSS

**Databases:** MySQL, MongoDB, PostgreSQL

**Developer Tools:** VS Code, Git, GitHub, Jupyter Notebook, Jira

**Libraries/Frameworks:** NumPy, RAG, Pandas, scikit-learn, Seaborn, Matplotlib, TensorFlow, XGBoost, Flask, FastAPI, Selenium, TestNG, Postman, Playwright

**Testing Tools:** Selenium, TestNG, Postman, Jira, Playwright

**Problem Solving:** Problem Solving & Data Structures and Algorithms (DSA)

**Additional Skills:** Machine Learning (ML), Artificial Intelligence (AI), Deep Learning (DL), Natural Language Processing (NLP), Generative AI (GenAI), Prompt Engineering, Computer Vision, Cyber Security, QA Automation, Manual Testing, Automation Testing, API Testing, SEO, OOP, Agile, SDLC, STLC, Bug Reporting

## Certifications & Training

---

### Meta Front-End Development Certificate

Jan 2024 – Apr 2024

*Qualified in Coursera*

- Completed learning front end development and build my own portfolio website as a project.

### Visteon Scholar Program

Nov 2025 – Jun 2026

*Phase 1 Completed and Qualified*

- Completed Phase 1 training covering Automotive Electronics, Clusters and Displays, Infotainment, Electrification, Sensors and Actuators, and Embedded Systems Fundamentals.

### Indian School of Ethical Hacking (In-House Internship Training)

Jan 2026 – Feb 2026

*Advanced Python with Machine Learning and Cyber Security*

- Trained in supervised and unsupervised Machine Learning and fundamentals of Deep Learning.
- Trained in Cyber Security principles, vulnerability analysis, and ethical hacking basics.

### AI for Everyone - Certified AI NATIVE

Mar 2026 – May 2026

*AI for Engineers Arena*

- Build a AI Email Phishing Detector which scans threat emails in real time.
- Implemented AI and Cybersecurity with API integration in gmail.
